

OBJECTIVES

This conference is dedicated to advancing the valorization of natural bio-resources and fostering biotechnological innovation. It aims to provide a dynamic, multidisciplinary platform where researchers, academics and industrial partners can exchange recent advances and breakthroughs in the field of bioactive molecules.

The event is strategically aligned with key national and global challenges, promoting innovative solutions and interdisciplinary collaboration across five main thematic areas.

IMPORTANT DATES :

- *Call for Abstracts Opens:* **July 15, 2026**
- *Submission Deadline:* **September 30, 2026**
- *Notification of Acceptance:* **October 15, 2026**
- *Payment of the registration fee:* **October 16-31, 2026**
- *Conference Dates:* **November 22-23, 2026**

THEMES

- Topic 1: Pharmacology of Bioactive Molecules and Citizen Health.
- Topic 2: Bioactive Molecules for Food Security and Agro-industry.
- Topic 3: Microbial Bioactive Molecules and Energy Security.
- Topic 4: Bioactive Compounds for Environmental Preservation.
- Topic 5: Digital Innovation and AI in Bioactive Molecules Discovery.

CHALLENGES

Bioactive molecules represent the cornerstone of modern scientific innovation, serving as the functional links between nature's chemistry and life-enhancing solutions. Extracted from plants, microorganisms, marine organisms, or designed through advanced synthesis, these compounds possess the unique ability to interact with living tissues, triggering specific biological responses. Because of their immense functional diversity, bioactive molecules have become indispensable tools in addressing some of the most critical global challenges of our time.

By bringing together researchers, industry experts, and students in a dynamic hybrid format, this conference aims to foster collaborative dialogue, unveil cutting-edge research, and pave the way for sustainable bio-driven technologies that shape our future.

REGISTRATION FEE

- 3,000 DA for PhD Students
- 6,000 DA for Professors & Researchers
- 9,000 DA for Industry professionals

A UNIQUE HYBRID EVENT

Online and at the Ecole Nationale Supérieure de Biotechnologie (ENSB) - Taoufik Khaznadar
Ville universitaire Ali Mendjeli

LOCATION

The conference will take place online and in the National Higher School of Biotechnology (ENSB). It is a prestigious Algerian institution dedicated to excellence in higher education and advanced scientific training. Located in the vibrant academic hub of Ali Mendjeli, Constantine, the school benefits from a strategic position in a city renowned for its rich history and educational infrastructure.

CONFERENCE GOVERNANCE

Honorary Chair: Prof. Douadi KHELIFI

General Chair: Prof. Rafik MARIR
